Autism Services, Inc. Receives Technology Grant from Ronald McDonald House Charities *Award to Support Agency's Education Program*

Williamsville, New York – (November 25, 2015) – Autism Services, Inc. (ASI) is pleased to announce a grant award of \$8,048.46 from Ronald McDonald House Charities of Western New York, Inc. The funding will be used to purchase two (2) much-needed Smart Boards® for classroom use at the agency's Bryant Stratton Way location in Williamsville, New York.

“On behalf of Autism Services, I would like to express my gratitude to Ronald McDonald House Charities of Western New York, Inc. for their continued support of our Education Program,” remarks Executive Director, Veronica E. Federiconi. “The interactive Smart Board® technology will give 12 of our students, many of whom have communication challenges, a voice in their learning process.”

The grant monies used to support this award were raised through efforts of the local McDonald's Restaurants in the Western New York community, and in part by national McDonald's promotional programs. This is the second year that Ronald McDonald House Charities of Western New York, Inc. has awarded ASI with funding to support Smart Board® technology for its classrooms.

Ronald McDonald House Charities provides lodging, comfort and emotional support to families of children receiving medical treatment at area hospitals and reaches out to families in the community by supporting programs, such as Autism Services' Education Program, that benefit children.
